EXPLORE OUR RANGE

THE WIDEST RANGE

FOUNDATIONS

Almost 40 models ranging from 2 to 50 tons of hydraulic crawler mounted drilling rigs designed for ground engineering applications such as micropiles, anchors, jet grouting and ground improvement in general.

PILING

Line of large diameter piling rigs designed for a wide range of applications such as bored piles, Continuous Flight Auger piles (CFA), displacement piles, soil mixing and micropiles.

GEOTECHNICAL

Crawler and truck mounted hydraulic drilling rigs designed as multipurpose units, able to meet the different requirements and needs related to geotechnical investigation and environmental monitoring projects.

GEOTHERMAL

Hydraulic crawler and truck-mounted drilling rigs designed for the most commonly used geothermal drilling techniques, especially with the use of double-head systems.

WATER WELL

Crawler and truck mounted drilling rigs designed and built to meet the needs of drilling contractors that specialize in the construction of small and large water wells.

EXPLORATION

Crawler and truck mounted mineral exploration drilling rigs designed for diamond core drilling, reverse circulation drilling and rotary drilling.

REMOTE MONITORING SYSTEM FOR YOUR DRILL RIG & FLEET

ComNect

SIMPLE.SECURE.SMART.

DEEP INNOVATORS SINCE 1986

INNOVATION & TECHNOLOGY

Innovation and continuous technological investment to improve production process, making worker's job easier.

COSTUMER - FOCUSED APPROACH & SOLUTIONS

Tailor-made project to suit specific needs and solve jobsite problems.

SPARE PARTS

A team of specialists provides genuine components of certified quality that guarantee the durability and reliability over time of all our drilling rigs.

QUALITY

Precise selection of components creating a product that is reliable, safe and in line with European Directives.

Specifications shown are only indicative, they also depend on the machine set-up and subjected to change without prior notice.
